ABOUT ME

I focus on building clean, responsive, and user-friendly interfaces. I enjoy working on real-world projects, improving my skills through hands-on practice, and turning ideas into functional products. I am looking for an opportunity to grow as a frontend developer, contribute to a collaborative team, and gain more hands-on experience.

EDUCATION

Azerbaijan Technical University (SABAH groups) **2023-2026**

- Bachelor in Information Technologies

Code Academy **2024-2025**

- Software Development

Sumgayit State University **2022-2023**

- Bachelor in Information Technologies

Technest Codinarium **2024**

- Web Programming

WORK EXPERIENCE

Jobing.az **2025**

- Front-End Developer(Intern)

AlfinX **2025**

- Front-End developer(Intern)

BeinSystems MMC **2025 Nov-2026**

- Front-End developer

Clomni **2026 July**

- Front-End developer

LANGUAGE

- Azerbaijani – Native
- Russian – Good
- English – Pre-Intermediate

- **Collaboration & Workflow Tools**:Slack, Linear, Trello, Notion,YouGile
- **Development Environment:** npm, Vite
- **AI-Assisted Development:**Antigravity**,**Claude Code, GitHub Copilot,Cursor
- **Routing / Navigation :**React Router, Next.js Routing
- **Currently Improving**: TypeScript, Advanced Next.js Concepts,React Native,NativeWind, react-native-reusables

PROJECTS

- **Vribbe**:Vribbe is a generative commerce platform that uses AI to transform traditional e-commerce from static product catalogs into dynamic and personalized shopping experiences.I developed the frontend landing page using Next.js and built the admin dashboard using React and Vite. The platform includes secure authentication with Google OAuth through Supabase.I also worked on CRM functionality for managing customer data, orders, and business information. The platform includes social media-related functionality for Facebook and Instagram, enabling businesses to manage customer interactions and information in one place.On the backend, I used NestJS for API and server-side development, Supabase for authentication, database management, and backend services, and Cloudflare services for storage, CDN, infrastructure, and deployment-related requirements.
- **Clomni-**I was part of the team behind this website's rebranding.
- **Gold Hospital:**Hospital appointment booking website. Tech Stack: Next.js ,Tailwind Css ,FormSubmit etc
